

# New Constellations

*Project Outputs – initial ideas*

**Capturing the  
journey**

- E.g. an **audio story** capturing voices of residents across the city
- A set of **guiding principles** or ‘new stars’ which sum up the story/future vision for the city

**Supporting  
action**

- E.g. a top-line plan for how to turn this into **action across different organisations**
- A set of proposed **projects and experiments** which can bring the principles to life
- Finding opportunities to use the story and principles to **inform wider pieces of work** across the city
