Laura White Partnership Manager

#### Welcome from Sheffield City Partnership

- □State of Sheffield 2018
- ■What is Sheffield City Partnership Board?
- ■What is our role in the city?
- □Highlights from 2017/18
- How are we working to build an inclusive and sustainable economy?
- What happens next?

#### State of Sheffield 2018

- Annual report looking at how the city is changing, it's challenges and opportunities
- Commissioned by Sheffield City Partnership involving multiple authors
- Informs priorities of the Board and partners
- Providing the evidence-base for the Partnership's wider work around building an inclusive and sustainable economy

#### What is the Sheffield City Partnership Board?

■The membership – public, private and voluntary sector executives, independent Chair

□The context – nurturing partnership relationships in the city, supporting partners with innovative projects, re-branding, new website

#### What is our role in the city?

- Building networks and relationships
- Collaboration and <u>collective influence</u>
- □ Facilitating joint working across the city
- Setting and promoting a vision for Sheffield
- Identifying and focusing on key issues

#### How do we do this?

■Understanding our assets and opportunities – aligning to partner activities and initiatives in the city and city region

E.g. AMRC, Olympic Legacy Park, Outdoor City, SCR Vision...

- ■Working across partnerships and building relationships Our Fair City, Equality Hub Network, Vision for Young People, Cohesion Framework...
- Agenda setting through research, reports, events, engagement activity

#### Highlights 2017/2018

- Working on our framework for building an inclusive and sustainable economy –national and international experts – Democracy Collaborative USA, Kings Fund, CLES, Learning & Work Institute, NHS Confederation, JRF, SPERI
- Developing new city-wide approaches progressive procurement, skills and work
- Engaging communities in developing solutions
- State of Sheffield 2018 evidence-base for further work
- New website and communications strategy
- New approach to meetings and transparency

#### Why focus on inclusive and sustainable growth?

"Inclusive growth is economic growth that creates opportunity for all segments of the population and distributes the dividends of increased prosperity, both in monetary and non-monetary terms, fairly across society" OECD

Helping **Growing our** Sheffield economy to people stay the benefit of happy, healthy all and safe Equipping Promoting fairness and residents with cohesion across groups skills and and generations opportunities **Empowering & Supporting** people with the engaging most effective residents and joined-up services

"Importantly, places need to see success through the lens of what the public wants and needs, in both an economic and social sense" PWC

"The challenge to achieve inclusive growth is therefore the challenge of our times: to build something both economically and morally sustainable for our children and for their children in turn" Professor Colin Hay, SPERI, 2017

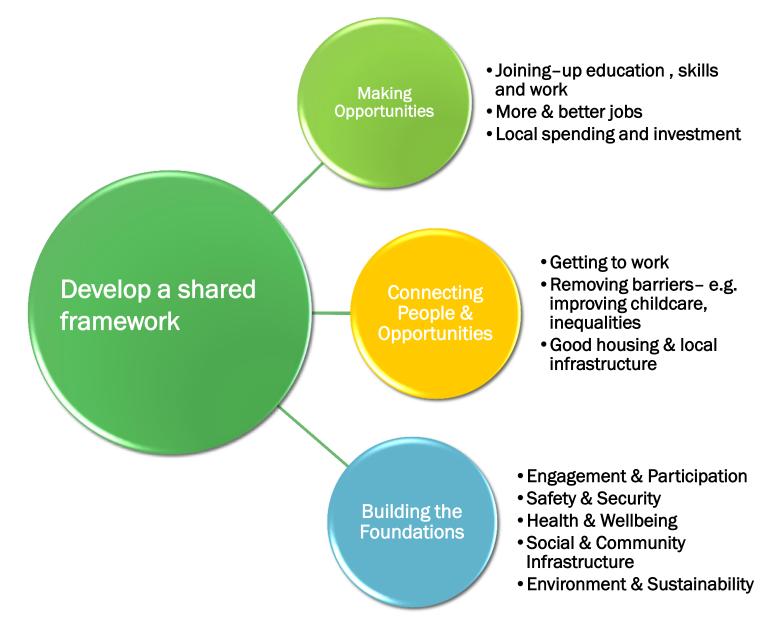

## What would an inclusive and sustainable economy look like?

- A city and citizens who fulfill their potential, maximising our assets and resources
- ➤ A place where everyone can shape, contribute to and benefit from our success
- An economy which works well and delivers for us all
- An economy which helps us lead happier, healthier and more fulfilling lives

#### How are we working to build an inclusive and sustainable economy?

#### How are we developing our framework?

#### What happens next...

- Engaging and communicating listening, sharing, learning https://sheffield.citizenspace.com/performance-research/37f83a7d
- Developing the framework with partners, residents, national and international experts – collaborating and outward facing
- > Workshops, events and information gathering
- > Inclusive & Sustainable Economy Framework launching autumn 2018

# Key Findings of the State of Sheffield 2018 Report

Professor David Robinson, The University of Sheffield

State of Sheffield 2018

## State of Sheffield 2018 —Sheffield City Partnership Board

## State of Sheffield 2018

## Key findings from the report

Professor David Robinson Department of Geography University of Sheffield

#### **State of Sheffield Reports**

- provides a narrative for the state of the city
- describes how things are, how they compare and how they're changing
- no claim to be comprehensive different themes each year
- draws on secondary data and reports
- **aim** = to help Sheffield's leaders understand more about the city, how it is changing and priorities for the future
- independent, objective and based in the evidence

#### The approach this year

- collaborative authorship similar to last year
- report covers the following topics:
  - Inclusive & Sustainable Economy
  - Involvement & Participation
  - Safety & Security
  - Social & Community Infrastructure
  - Health & Wellbeing
- with a focus on Inclusive Growth running throughout the report

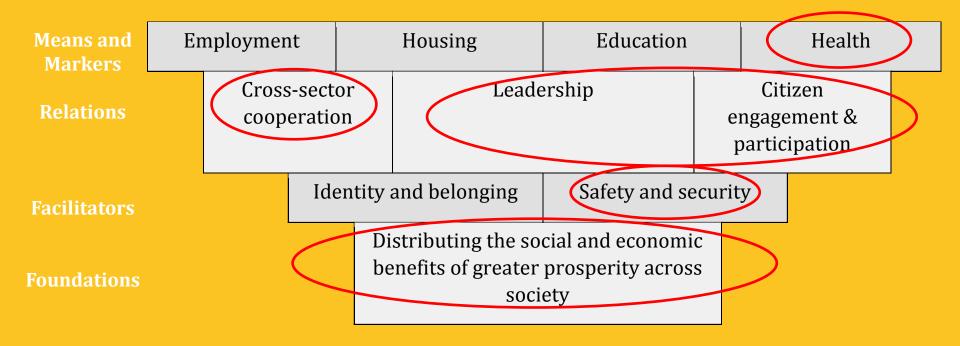

#### Beating the odds?

- economic uncertainties; restricted choices and opportunities; rising inequalities; austerity
- path dependency are at the mercy of forces we cannot control or influence....
- or can we respond with creativity and innovation to try and beat the odds?
- can we work together to promote growth and create jobs and opportunities?
- perhaps....but growth alone is not enough

#### **Inclusive Growth**

- growth and fairness
- economic growth that distributes the social and economic benefits of greater prosperity across society
- example not merely connecting people to new job opportunities through education and training BUT making sure these opportunities offer decent pay and reasonable terms and conditions

#### **Indicators of Inclusion**

#### 1. Inclusive & Sustainable Economy

- traditional measures of economic growth suggest Sheffield is close to the Yorkshire average but lagging behind some other core cities
- alternative measures reveal a more nuanced picture
- Sheffield second most improved area nationally on Grant Thornton Vibrant Economy Index (2013-17)
- BUT a mixed picture; in bottom 40% of LAs for inclusion & equality (everyone benefits from economic growth)

Local Authority	Vibrant Economy Index	Prosperity Index	Dynamism and opportunity Index	Inclusion and Equality Index	Health, Wellbeing and Happiness Index	Resilience and sustainability Index	Community, Trust and Belonging Index	
Sheffield	С	В	Α	E	G D	В	В	

A= Top 20% LAs, E= Bottom 20% LAs

### 2. Involvement & Participation

- tough decisions reduced funding / rising demand
- faltering engagement in traditional democracy divided city?
- harnessing the energies of active citizenship
  - *ambition* democratic renewal for an inclusive city
  - principles transparency; accountability; empowerment
  - means engagement & participation; leadership; good governance

"We have some great examples of good democracy and engagement, but equally we know that we do not have an overarching vision and strategy for renewing and sustaining democracy and engagement in Sheffield. This, we believe, must be a key feature of our plans for an inclusive economy."

#### **Voter Turnout**

#### 2016 Local election turnout data

Ward (Least deprived - Most deprived)

2016 Local election turnout data

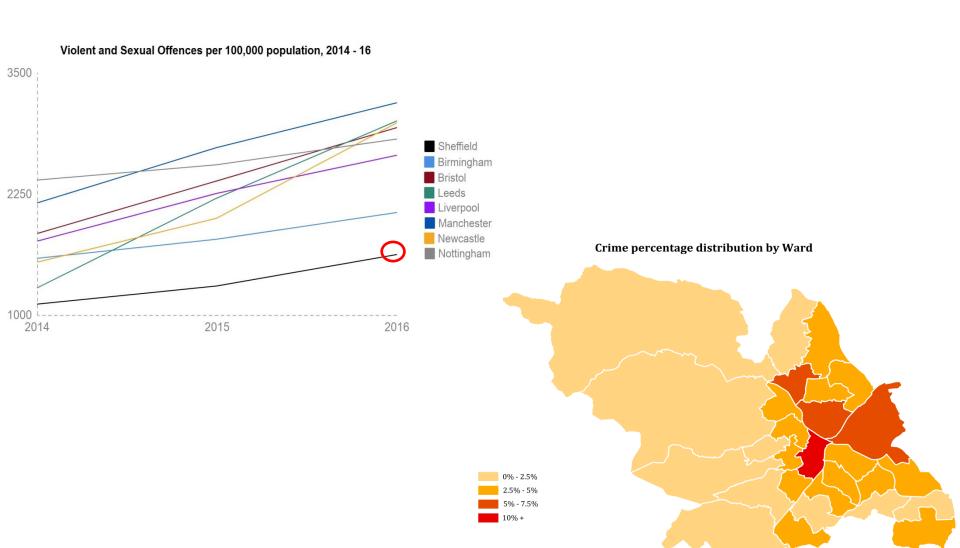

— Linear (2016 Local election turnout data)

### 3. Safety & Security

- cities with high levels of inequality tend to be less safe
- problems with crime and safety can undermine community sustainability

- Sheffield remains a relatively safe city
- crime risen in recent years, but more slowly than other cities
- the geography of crime in the city is complex and variable
- Sheffield's communities are a key asset need to be protected

#### **Crime**

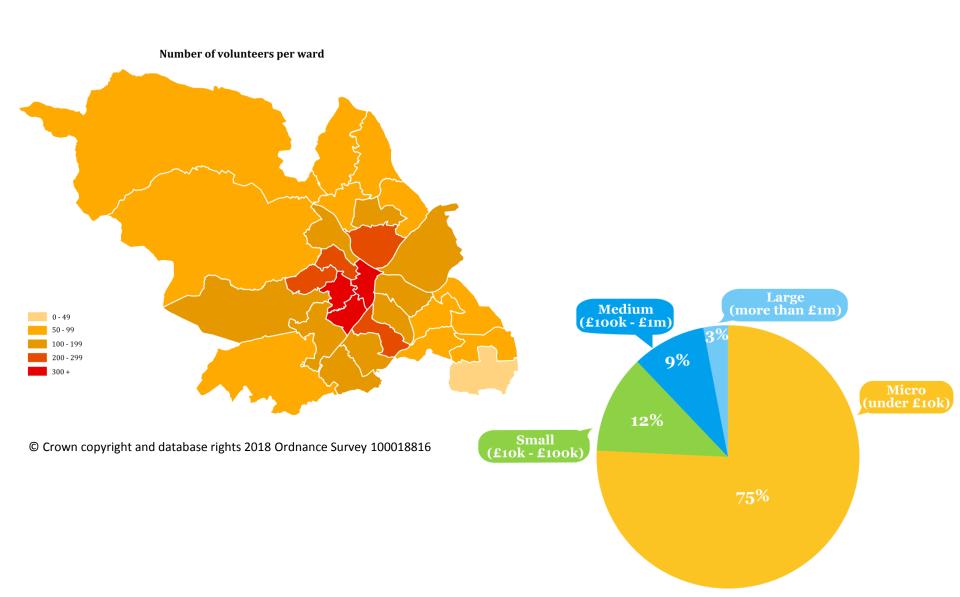

© Crown copyright and database rights 2018 Ordnance Survey 100018816

#### 4. Social & Community Infrastructure

- Sheffield has  $\sim$ 3,300 voluntary and community groups
- key to a fairer distribution of influence
- a buffer against tough times
- facilitating access to opportunities
- anchor organisations in local communities
- a challenging funding climate and rising demand for services (particularly in more deprived areas)
- importance of recognising social (as well as economic) value

#### **Social & Community Infrastructure**

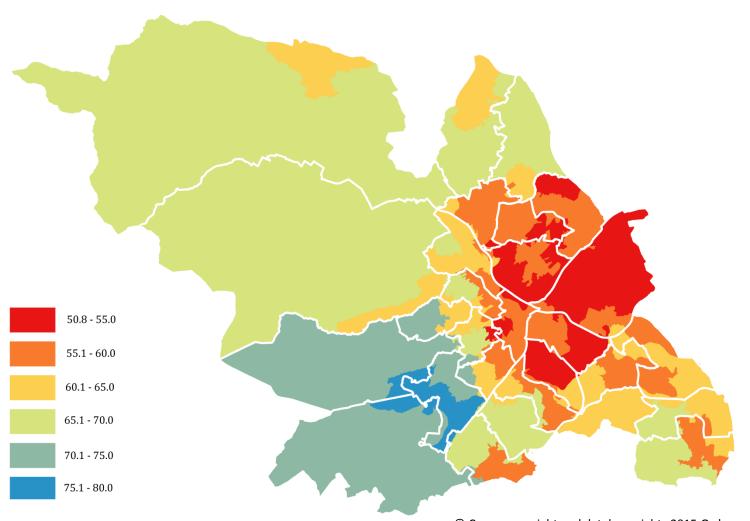

#### 5. Health & Wellbeing

- health and well-being informs engagement with the labour market and informs productivity
- life expectancy in Sheffield is below the national average
- the life expectancy gap between the richest and poorest areas of the city is 10.1 years for men and 7.6 years for women
- work does not provide a guaranteed route out of poverty and path to good health – rise of the 'gig economy'

## Health & Wellbeing

#### **Female Healthy Life Expectancy**

### **Looking forward**

- the importance of ensuring that economic growth is more equally distributed
- tackling the low pay and productivity gap
- engagement and participation that reflects or diverse city
- voluntary and community sector as an agent of inclusion
- improving health for a more inclusive economy; creating a more integrated health and work system
- inclusive economy safety and security
- battling against path dependency the power of localism
- £15.1bill public sector spend in Sheffield CR (2013-14)
